Patent In  
"work file"

see attached page

for instructions

work

Please do not submit a PatentIn "~~.prj~~" file. It is a "work-in-progress" file only; you will need to submit a generated Sequence Listing. To generate one, go to "Application Steps" on PatentIn main menu. Click on "Generate Sequence Listing" and then click "Start" button. PatentIn will validate each sequence; hopefully, you will see "Successful completion" in the white box above the "Start" button. Use the PatentIn ".prj" file to generate the sequence listing.

You can then view the generated Sequence Listing by going to "Project" on main menu, and clicking on "View/Print Sequence Listing." A generated PatentIn Sequence Listing will have an ".ST25" file extension.

For further assistance, please contact Mark Spencer at 571-272-2510.

Please do NOT include the ".prj" or "work" files, when submitting the generated sequence listing file in computer readable form.
